

# Responsible Waitakere e-Learners

## *I will:*

- Use a device to help me with my learning.
- look after all devices and use them appropriately.
- respect other learners – This means that I won't edit or delete other people's work without their permission.
- protect my passwords – I don't share them with any other learners.
- not use my personal accounts or accounts that are not related to school.
- only visit appropriate websites (as agreed with my teachers).
- click the "back" button and call my teacher immediately if I see something inappropriate.
- only use digital equipment before school, morning tea or lunchtime when a teacher is in the classroom to supervise me. We use our phones after 3pm only for parent contact if necessary.
- use my own device following the same rules as above.
- be given consequences if I break these rules
